INNOVATION AND EXCLUSIVITY

Windows to Infinity goes beyond a conventional exhibition: each artwork acts as a window to different worlds and invites visitors to immerse themselves in an experience that nurtures their imagination and knowledge.

Thanks to **augmented reality, virtual reality** and **state-of-the-art projections**, the audience connects deeply with the stories and characters of each vision in four interactive rooms.

THE STORIES BEHIND MONUMENTAL VISIONS

Each creation of the monumental visions is accompanied by **videos and narratives** that guide the visitor to give them an enriched context about the characters, stories and themes. This approach greatly enhances the viewer experience as it opens the door to a deeper understanding and appreciation of the artistic and cultural legacy behind **Windows to Infinity**.

WINDOWS TO INFINITY IS FOR EVERYONE

Windows to Infinity has been created with an inclusive approach so that people of all ages, cultures, and backgrounds can enjoy the experience. **From children to adults**, everyone will find elements that resonate with their personal and collective interests. The result is an educational, interactive and entertaining experience that sparks learning and wonder in every visitor.

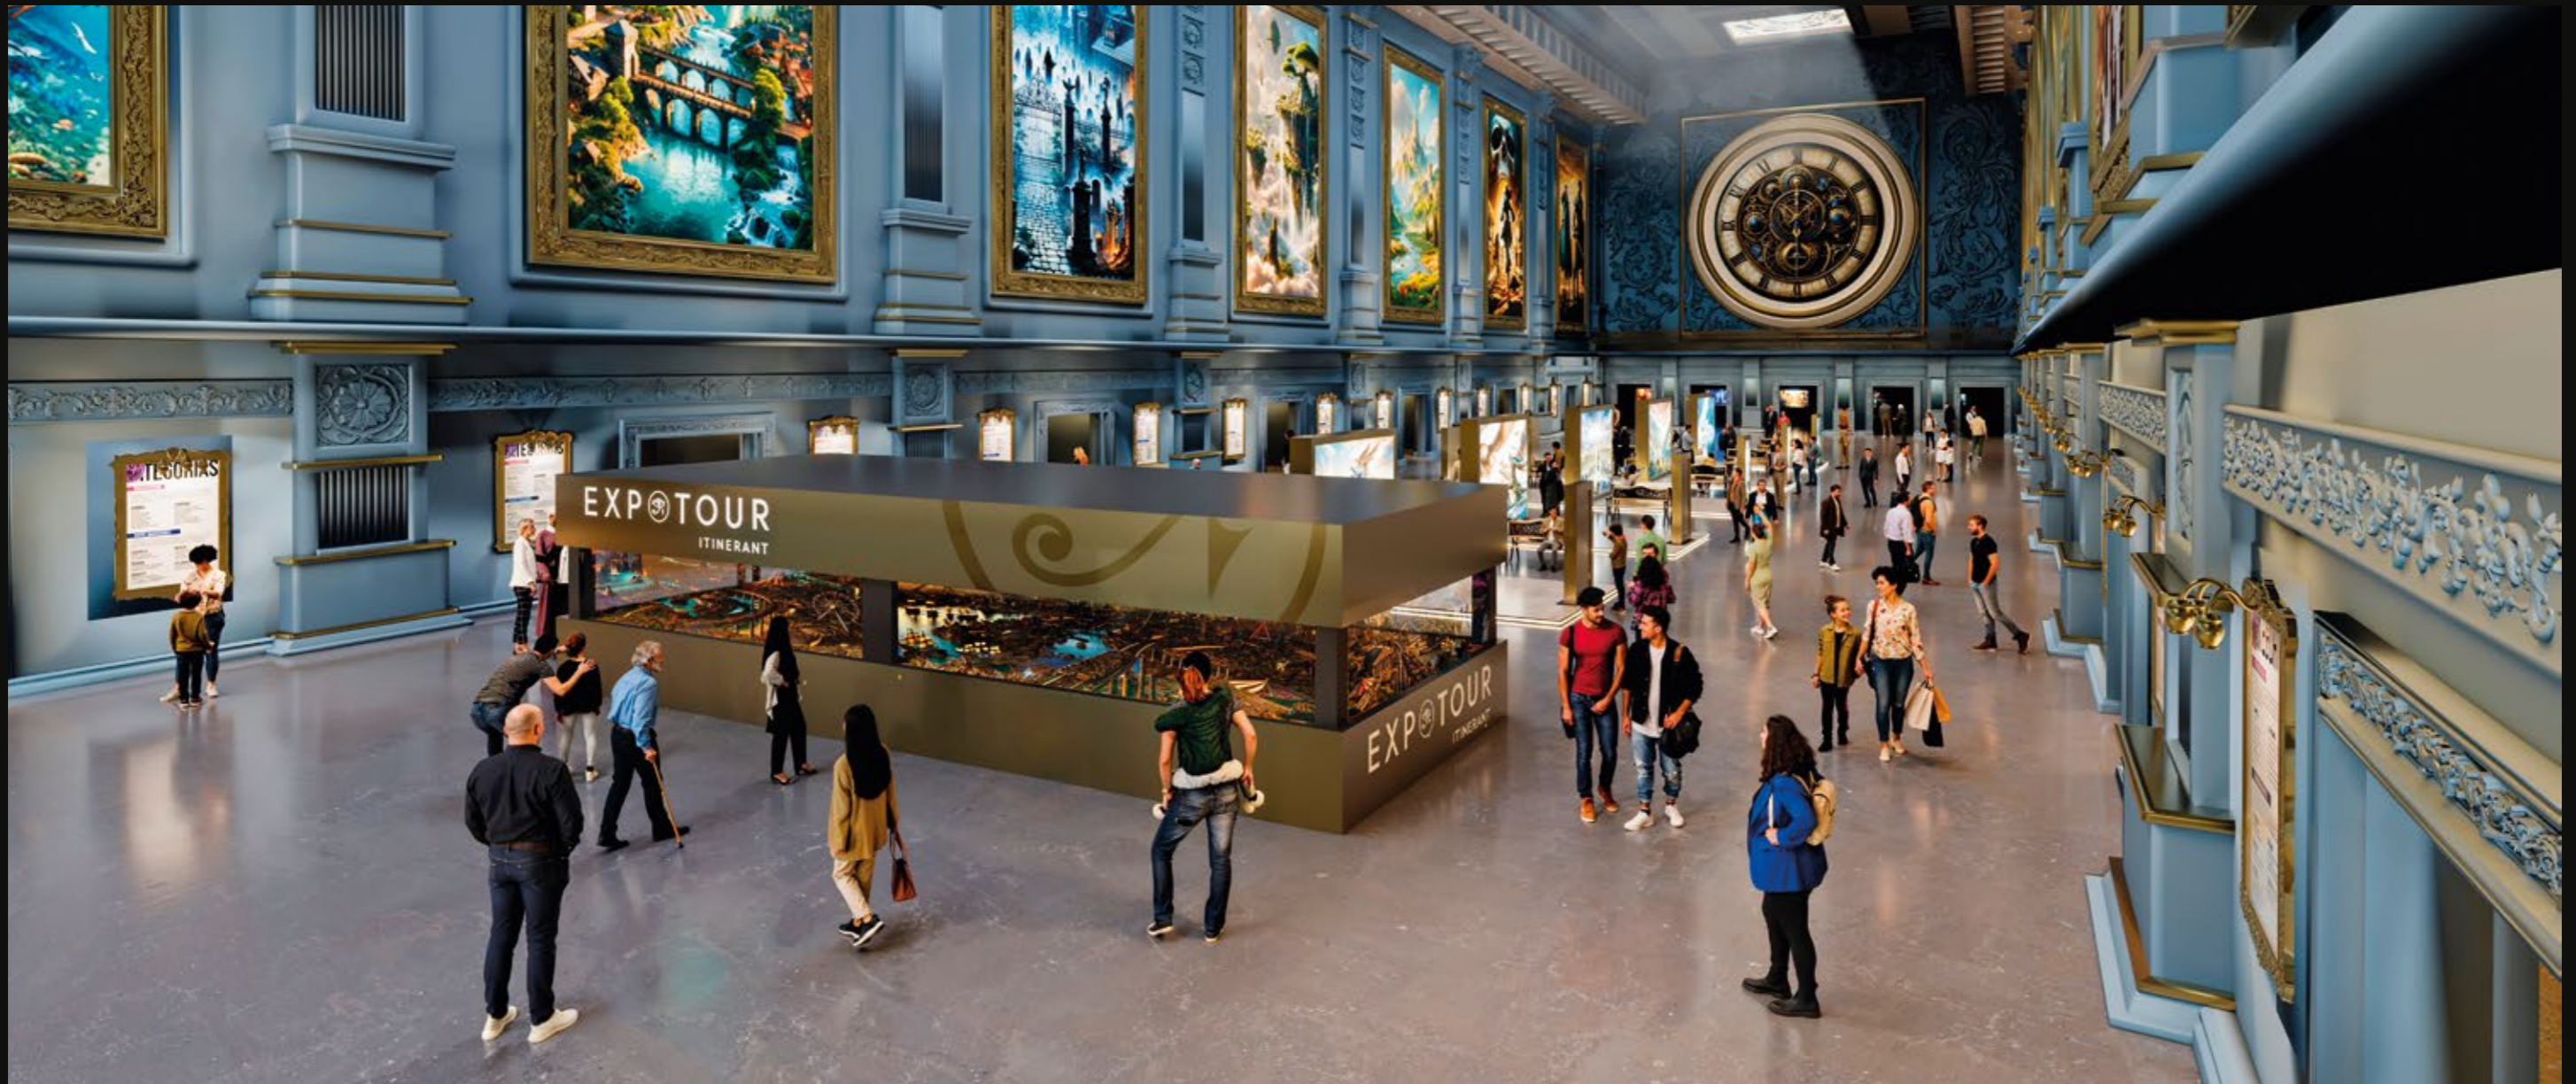

THE CENTRAL HALL

The **central hall** is decorated to transport visitors to a classic era, combining elegance with a touch of modernity. Inspired by the **great train stations of the past**, its majestic architecture creates an atmosphere that fuses the ancient with the contemporary in an environment of great beauty.

Majestic doors connect the central hall with each of the rooms hosting the different visions, the immersive rooms and the Corner of Imagination (thematic boutique).

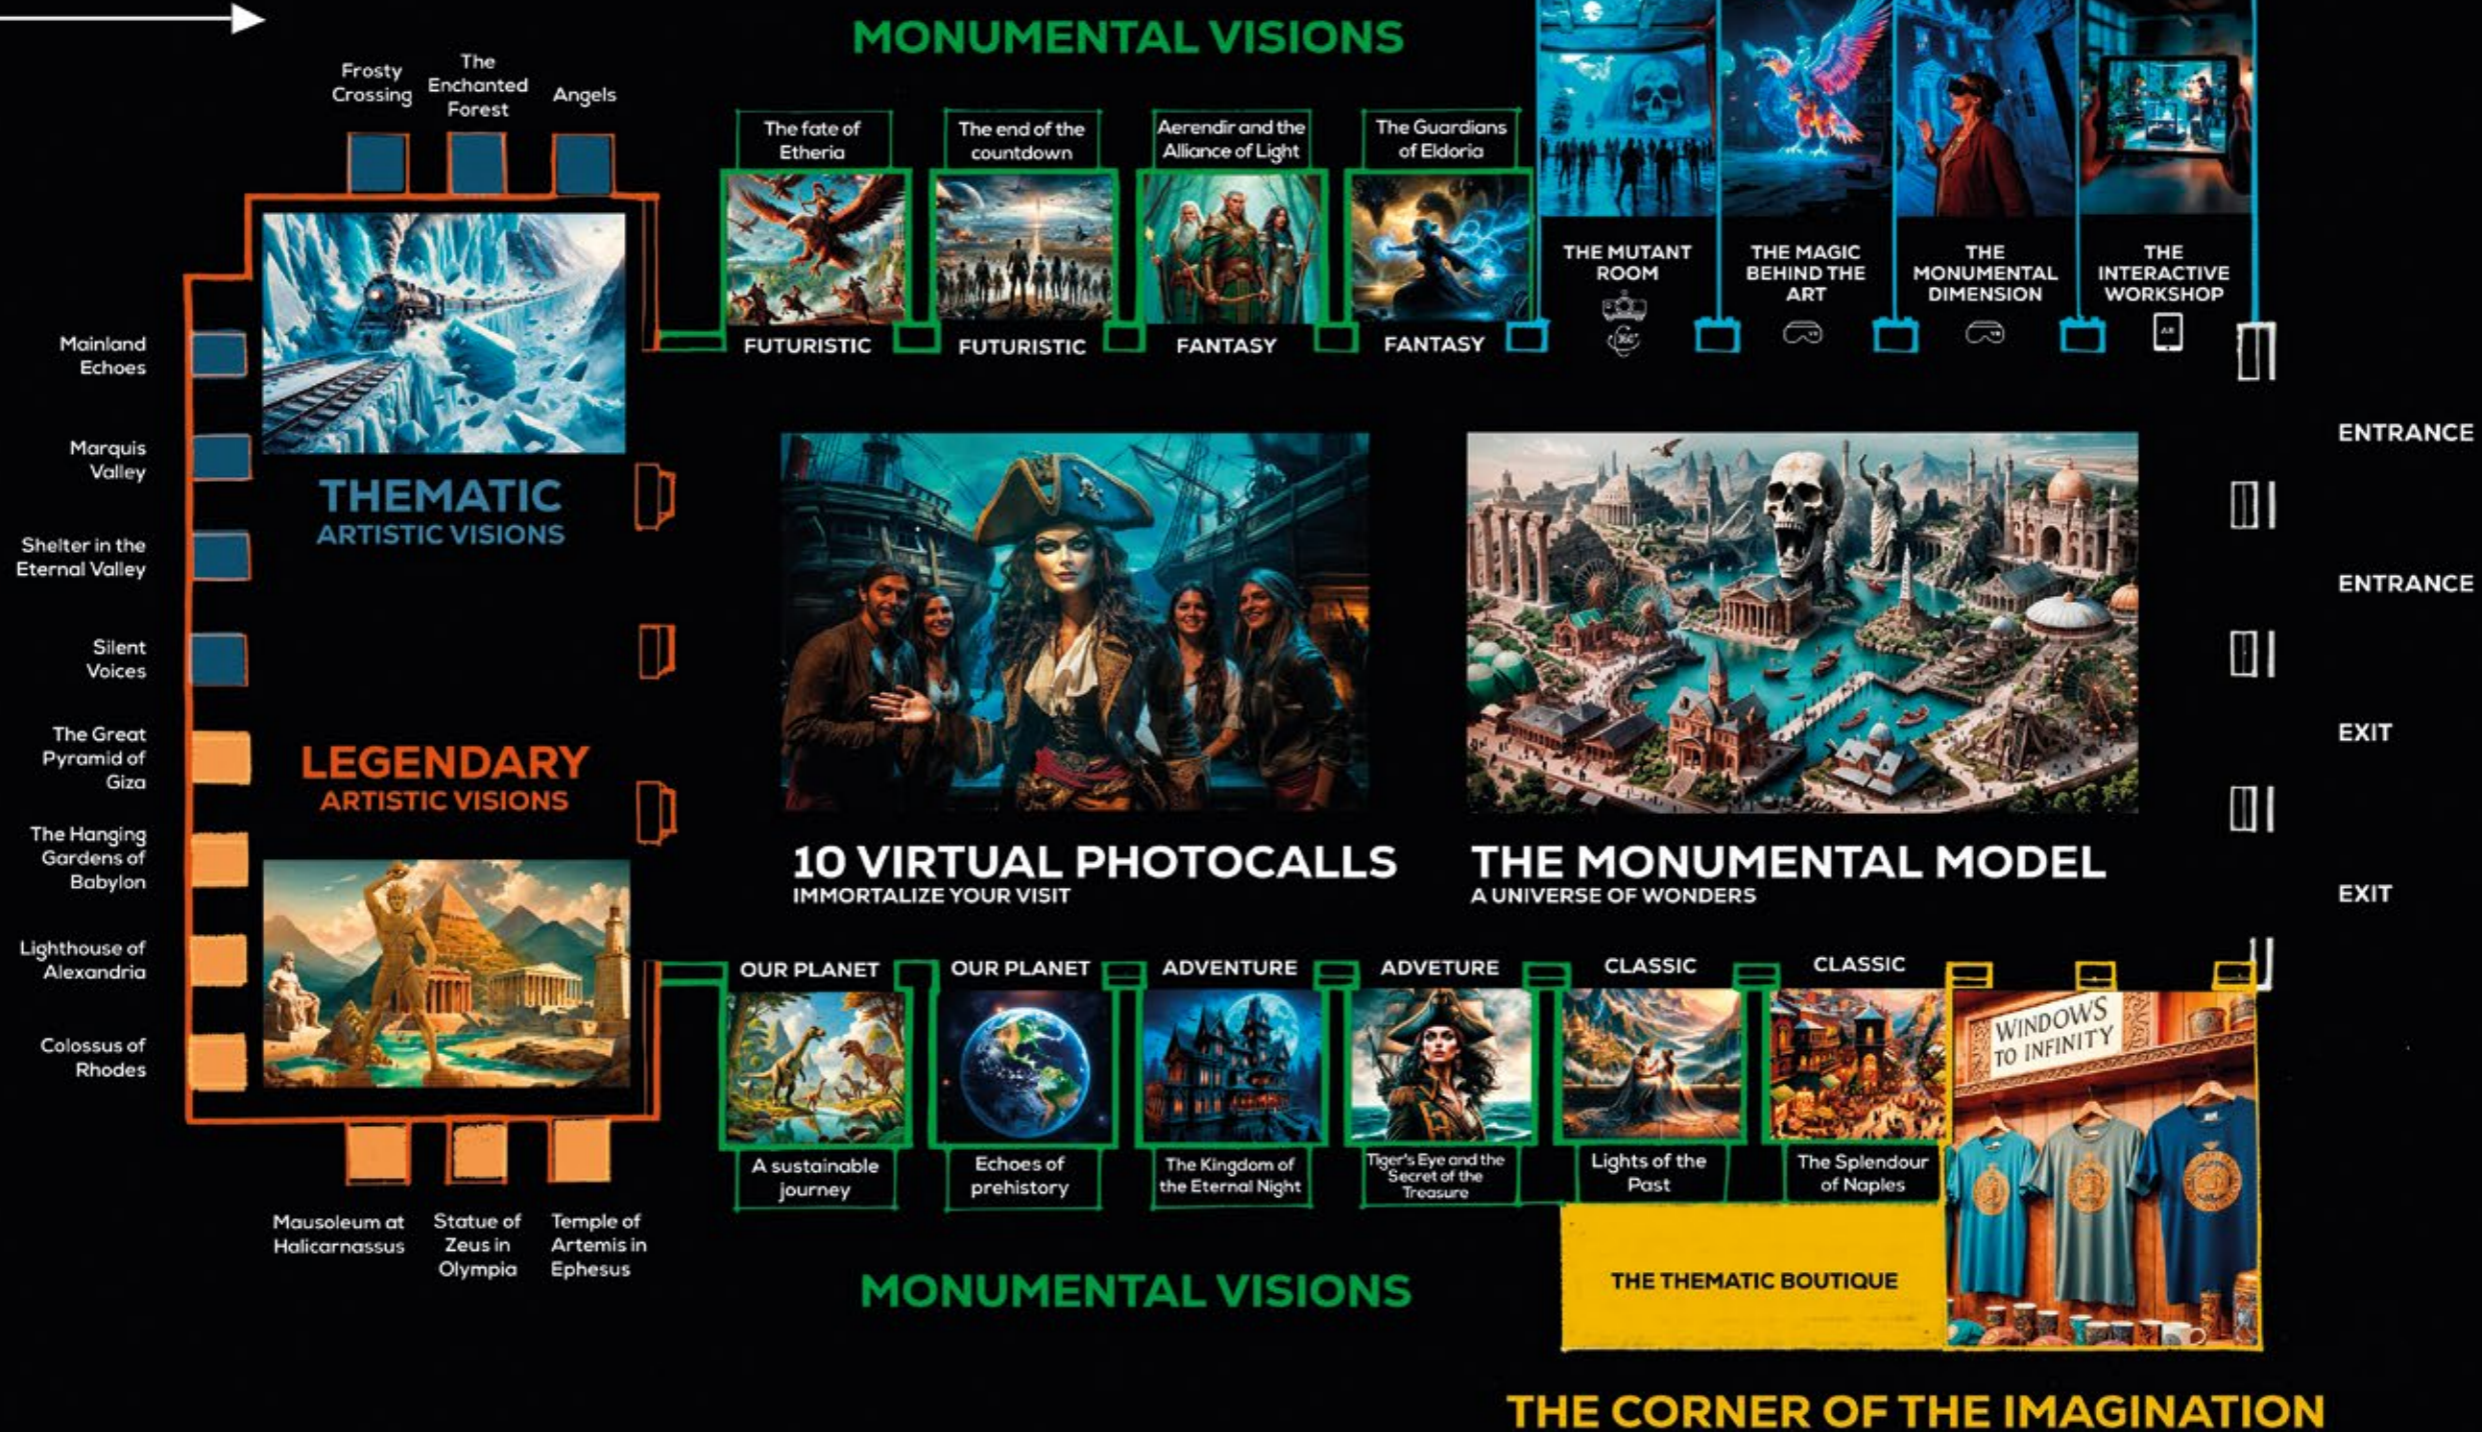

This space, which includes the Universe of Wonders (Monumental Model) and virtual photo-calls, is designed not only to be admired, but also to invite exploration and interaction, in an environment that celebrates both functionality and aesthetic beauty.

RAMON COLOMER: INNOVATION IN IMMERSIVE ART

Ramón Colomer is an artist and visionary who has committed his life to connecting art with technology. With a career spanning more than 40 years, he has created experiences that push the boundaries of traditional art to connect with a global audience.

His most ambitious project, **Windows to Infinity**, goes beyond a simple exhibition: it is a cultural experience that democratizes art, combining history, technology and emotion in each artwork. This project represents the pinnacle of his creative vision and transforms the way the public experiences and lives art.

Innovators: the creative engine behind the visions

Behind each of Ramon Colomer's creations are the **Innovators**, a multidisciplinary team made up of professionals who share his passion for creating immersive art. This group includes creatives, designers, engineers, programmers, and virtual experience specialists, among others.

The **Innovators** have a clear goal: to transform Colomer's visionary ideas into immersive experiences that captivate visitors of all ages. With a unique combination of technical precision, boundless creativity and a passion for excellence, they execute every detail to perfection.

Boundless creativity and innovation

For Colomer and the Innovators, art is a constant reflection, a living dialogue between the artist, his team and the public. This collaborative and innovative approach makes it possible to explore new forms of artistic expression and to adapt to each project with an endless creativity.

The Innovators are more than a team; they are the soul behind every exhibition. Their ability to unite art, technology and emotional narratives is what makes each project a unique and unforgettable experience.

A legacy of emotional and cultural impact

Each artwork created by Ramon Colomer reflects a deep commitment to personal and collective growth through art. **Windows to Infinity** is not only the pinnacle of his career, but also a global cultural phenomenon.

This project inspires new generations to challenge the limits of art and imagine new ways of experiencing it. Together, Colomer and the Innovators are transforming the art landscape and leaving a legacy that emotionally connects with people and redefines the art experience.

A GLOBAL EXHIBITION

Windows to Infinity is more than just an exhibition: it is a **revolutionary cultural proposal** that seeks to bring an immersive experience combining art, history and technology to the great cities of the world.

With an innovative approach, the exhibition offers a unique way to experience **the past, present and future** through its visions, projections and interactive spaces.

Our mission is to bring this monumental work closer to cultural centres, museums and organizations that share our commitment to cultural dissemination and art.
